

## Appendix: AI Use Declaration

AI Tool Name & Version: ChatGPT (OpenAI, GPT-5.3)

Purpose of Use: AI was used to assist with brainstorming ideas, structuring the report, and formatting content into HTML for presentation in Jupyter Notebook. AI was also used to clarify concepts and assist with understanding Python syntax. All analysis, data processing, model implementation, and results were independently carried out, and all outputs were verified and interpreted manually.

By submitting this assessment, I confirm that:

- All assistance received from AI tools complies with the permitted uses and is properly declared.
- The analysis, code, and conclusions are my own work.
